| Stewards Log No. 16 |
| Posted at: 09 : 20 |

After consultations with all teams, drivers and the FIA Circuit Inspector, the Organizers have reviewed the Start, Restart and Finish locations.

The Organizers have determined and the Stewards confirm that all Race Starts will be from the Start Line between Turns 7 and 8. The Start Signal will be given from the elevated Start Stand on drivers left.

All Race Restarts will be from the Control Line between Turns 7 and 8. The Restart Signal will be given from the elevated Start Stand on drivers left.

All Race Finishes will be at the Control Line, just prior to Turn 1. The Checkered Flag will be displayed from the elevated Finish Stand on drivers right. Competitors are required, specifically after the being displayed the Checkered Flag, to continue straight onto the banking of NASCAR Turn 1, instead of taking the left-hand Turn 1 Chicane. Competitors taking the Checkered Flag are reminded to slow, and not interfere with cars ahead of them that have not taken the Checkered Flag, and are still racing thru Turn 1 or Turn 2.
