**Appendix A Notes.**

The combination of the minimum weight of the car on official scales plus the recorded driver weight must be above the minimum weight listed in the "Min weight including driver". Reference Sporting Regulations Article 28 and Technical Regulations Article 1.5.

Restrictor Dimensions and shape conform to the homologation. **All vehicles** must use mandatory pressure sensor per Technical Regulation Article 10.4. Vehicles must also comply with Technical Regulation Article 10.4 regarding the series data monitoring for both NA and pressurized vehicles.

Turbo cars without adjustable P boost must add ballast for ambient pressures < 990mbar...per Comments column.

SRO Competition board retains right to modify any parameter required to establish balance of performance as per Sporting Regulation Article 16.6.
