Subject: Stewards Bulletin No. 10 – TC America Race 1 Start Procedures

Date: 8/28/20

Time: 11:15

Due to weather conditions, the Race Director has requested and the Stewards have approved a change to the starting procedures - SR Article 45.6 - for TC America Race 1.

TC America Race 1 will have split grids – TCR / TC / TCA – and the distance of the splits will be established by the pole sitter for TC and TCA.

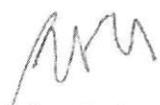

There will be single Pace/Safety Car leading the formation lap for Race 1.

There will be 3 separate and distinct Green Flags for each class start.

The above concerns only the start of Race 1, and not any subsequent restarts, for which there will be a single Green Flag. SR Articles 45.5.6 and 47.3 remain as written.
