

From: The Stewards
To: DRS & Garagistic No. 06
Re: Technical Violation

Stewards Decision No. TC-05
Date: September 24, 2022
Time: 18:15

During post-race inspection by the series technical staff, fuel samples were pulled from several competitor cars.

The fuel pulled from the DRS & Garagistic No. 06 car was, upon assay, found to be non-compliant with the series regulations on fuel, as defined in Sporting Regulations 35.1 - 35.5

The Chief Scrutineer wrote a Technical Infraction Acknowledgement form, Sequence No. 002, on the matter, and delivered it to the team representative, who signed the acknowledgement at 17:06.

The Stewards, after discussion with the Series Technical Manager, determined that the team was in breach of the Sporting Regulations, and that the team would have not have benefitted in any sporting way from the breach.

The Stewards issue a fine of \$500, and caution the team to exercise caution in all fuel handling matters in the future.
